EXPERIENCE

Web Developer

Central University of Kashmir Department of IT

Jun 2026

- Designed and maintained the official 2AI Conference website.
- Built a responsive and accessible user interface with a focus on usability and performance.
- Collaborated with the organizing team to deliver a seamless web experience.

Design Team Lead

Central University of Kashmir Department of IT

Jun 2026

- Led the conference branding and design team.
- Designed and supervised visual assets including banners, standees, ID cards, badges, certificates, folders, merchandise, and promotional materials.
- Ensured consistent visual identity across digital and print media.

Volunteer

Central University of Kashmir

Jun 2026

- Contributed to the successful execution of pre-conference workshops and the 2AI Conference.
- Coordinated event logistics, participant support, and team collaboration.
- Assisted in planning, organizing, and managing conference activities.

Student Intern

National Institute of Technology Srinagar

Dec 2025 – Feb 2026

- Worked on machine learning concepts, algorithms and practical implementations.
- Completed technical assignments and projects under faculty mentorship.

Campus Lead

Open Source Global Connect

Dec 2025 – Present

- Organized open-source events and community engagement activities.
- Mentored students on Git, GitHub and contribution workflows.

Mentor

Social Winter of Code (SWOC)

Jan 2026 – Mar 2026

- Mentored contributors in frontend and web development projects.
- Assisted students with pull requests, issue resolution and code reviews.

Mentor

GirlScript Summer of Code (GSSoC)

May 2026 – Present

- Guided contributors in open-source development and collaboration.
- Reviewed pull requests and assisted with project onboarding.

PROFILE

Computer Science student with experience building and deploying full-stack and AI-powered applications. Proven leadership through mentoring open-source contributors, leading developer communities, and securing top positions in hackathons and technical competitions.

TECHNICAL SKILLS

React

TypeScript

JavaScript

Python

PostgreSQL

Supabase

Git

GitHub

Tailwind CSS

Vercel

AI/ML

Arduino

ACHIEVEMENTS

1st Position

SynerTech 2026

1st Position

Open Build Challenge – FOSS NIT Srinagar

1st Position

Logo Designing Competition – Cyber Conclave 2025

2nd Position

Cursor Kashmir Hackathon – (V0 by Vercel)

4th Rank

Portfolio BuildSprint 1.0

EDUCATION

B.Tech Computer Science & Engineering

Central University of Kashmir

2023 – 2027

Expected Graduation: July 2027

Senior Secondary (CBSE)

Delhi Public School Srinagar

2009 – 2023

Medical + Mathematics

CERTIFICATIONS

Oracle OCI AI Foundations

IBM AI Fundamentals

Microsoft AI Concepts

Microsoft ML Concepts

Google Cloud ML APIs

Frappe Framework Workshop

DSA Modern Product Engineering

Student Ambassador

Google

📅 May 2026 – Present

- Represented Google on campus by promoting student engagement, technology awareness, and community-driven learning.
-

PROJECTS

Academic Portal System

Full-Stack Academic Management System

- Developed role-based portals for students, faculty members and administrators.
 - Built attendance tracking, marks management, notices, resources and academic record modules.
 - Implemented real-time academic workflows for managing day-to-day university operations.
-

CUK Examination Management System

Secure Examination Administration Platform

- Developed a role-based exam management system for faculty, HODs and administrators.
 - Automated examination workflows including paper handling, paper leaks etc.
 - Implemented secure access controls and administrative tools for confidential examination operations.
-

2AI Conference Website

Team Project | Official International Conference Website

- Designed and developed the complete frontend and user experience of the conference website.
 - Built responsive interfaces for speakers, events, schedules and conference information.
 - Optimized accessibility, performance and cross-device compatibility for public deployment.
-

Her Space

Women's Health Support Platform

- Developed a comprehensive platform combining health tracking, pregnancy planning, research resources, and AI-powered health support.
 - Integrated mentorship, career opportunities, women-focused travel, professional discovery, and community experiences.
 - Built resources for health awareness, research discovery, mental wellness, safety, and personalized support in one ecosystem.
-

GaashAI

Multilingual AI Translation Conversational Assistant

- Developed a multilingual AI assistant supporting Kashmiri, Urdu, and English communication and translation.
 - Integrated OCR-based image recognition to extract and translate text from images and documents.
 - Implemented voice input, text-to-speech, RTL support, and persistent chat sessions .
-

Karawan

Team Project | Intercity Carpooling Platform for Kashmir

- Developed a peer-to-peer carpooling platform connecting people travelling along the same routes across Kashmir.

- Enabled users to offer rides by publishing their route, date, available seats, and fare, while others can discover and join suitable rides.
 - Implemented real-time ride search, bookings, in-ride chat, notifications, ratings, and cross-platform mobile support.
-

CUK Acadex

Team Project | University ERP Platform

- Contributed the Academic Portal System as a core module of the university ERP platform.
 - Developed academic management features including attendance, marks, notices and student records.
 - Implemented real-time academic workflows
-

BIS AI

Team Project | AI Product Verification Assistant

- Developed an AI assistant for product verification and standards compliance.
 - Implemented multilingual chatbot interactions with source-backed responses.
 - Built scalable backend workflows and Progressive Web App functionality.
-

Sign Bridge India

Real-Time Indian Sign Language Communication Platform

- Developed a browser-based platform for real-time bidirectional translation between Indian Sign Language and spoken/written language.
 - Integrated MediaPipe Vision AI for real-time sign recognition and a 3D avatar for generating ISL signs from text and speech.
 - Implemented ISL grammar conversion, interactive gloss editing, bilingual support, and privacy-focused local processing.
-

Rasta AI

Team Project | AI-Powered Assistant Platform

- Built an AI-powered platform for document analysis and information retrieval.
 - Integrated multilingual voice and text interactions using LLMs.
 - Secured 2nd Position at the Cursor Kashmir Hackathon.
-

Araaz E-Commerce Website

Full-Stack E-Commerce Platform

- Developed a responsive e-commerce platform with product showcase pages.
 - Integrated inquiry and contact workflows using Web3Forms.
 - Deployed and optimized the application on Vercel.
-

Smart House using Arduino

IoT Home Automation System

- Developed an Arduino-based home automation system.
- Integrated infrared and ultrasonic sensors for automated device control.
- Implemented real-time monitoring and smart automation features.
