

NIMRA WANI

Computer Science Undergraduate | Full-Stack Developer | AI/ML Engineer

nimrawani04@gmail.com [nimrawani04](#) [nimra-wani](#) [nimrawani.vercel.app](#)

EXPERIENCE

Design Team Lead & Web Developer

2AI Conference, Dept. of IT, Central University of Kashmir

Jun 2026

- Designed and developed the official conference website, delivering a responsive, accessible interface optimized for usability and performance.
- Led the conference branding and design team, overseeing visual assets including banners, standees, ID cards, badges, certificates, and promotional materials to maintain a consistent identity across digital and print media.
- Coordinated pre-conference workshops and volunteer logistics to support seamless execution of the conference program.

Student Intern

National Institute of Technology (NIT) Srinagar

Dec 2025 – Feb 2026

- Worked on machine learning concepts, algorithms, and practical implementations under faculty mentorship.
- Completed technical assignments and applied ML projects as part of the internship program.

Campus Lead

Open Source Global Connect

Dec 2025 – Present

- Organize open-source events and community engagement initiatives on campus.
- Mentor students on Git, GitHub, and open-source contribution workflows.

Mentor

Social Winter of Code (SWOC)

Jan 2026 – Mar 2026

- Mentored contributors on frontend and web development projects.
- Supported contributors with pull requests, issue resolution, and code reviews.

Mentor

GirlScript Summer of Code (GSSoC)

May 2026 – Present

- Guide contributors through open-source development and collaborative workflows.
- Review pull requests and support project onboarding.

Student Ambassador

Google

May 2026 – Present

- Represent Google on campus, promoting technology awareness and community-driven learning among students.

PROJECTS

CUK Acadex

Full-Stack University ERP Platform | Team Project

- Contributed core academic and examination management modules to a full-stack university ERP platform.
- Built role-based portals for students, faculty, and administrators, covering attendance tracking, marks management, notices, resources, and academic records.

PROFILE

Computer Science undergraduate with hands-on experience designing, building, and deploying full-stack and AI-powered applications. Proven leadership mentoring open-source contributors, leading developer communities, and placing at the top of multiple hackathons and technical competitions.

TECHNICAL SKILLS

Languages & Frameworks

React TypeScript JavaScript Python

Databases & Version Control

PostgreSQL Supabase Git GitHub

Tools & Platforms

Tailwind CSS Vercel AI/ML Arduino

ACHIEVEMENTS

 **1st Position**
SynerTech 2026

 **1st Position**
Open Build Challenge, FOSS NIT Srinagar

 **1st Position**
Logo Designing Competition, Cyber Conclave 2025

 **2nd Position**
Cursor Kashmir Hackathon (V0 by Vercel)

 **4th Rank**
Portfolio BuildSprint 1.0

EDUCATION

B.Tech Computer Science & Engineering

Central University of Kashmir

2023 – 2027

Expected Graduation: July 2027

Senior Secondary (CBSE)

Delhi Public School Srinagar

2023

Medical and Mathematics streams

CERTIFICATIONS

Oracle OCI AI Foundations

IBM AI Fundamentals

Google Cloud ML APIs

Microsoft AI Concepts

Microsoft ML Concepts

Frappe Framework Workshop

DSA – Modern Product Engineering

- Developed a secure examination management module automating paper-handling workflows and leak-prevention safeguards, with role-based access for faculty, HODs, and administrators.
 - Implemented real-time academic workflows for day-to-day university operations.
-

Her Space

Women's Health & Support Platform

- Built a platform combining health tracking, pregnancy planning, research resources, and AI-powered health support.
 - Integrated mentorship, career development, community, and travel resources tailored for women.
 - Consolidated health awareness, research discovery, mental wellness, safety, and personalized support into a single ecosystem.
-

GaashAI

Multilingual AI Translation & Conversational Assistant

- Built a multilingual AI assistant supporting Kashmiri, Urdu, and English communication and translation.
 - Integrated OCR-based image recognition to extract and translate text from images and documents.
 - Implemented voice input, text-to-speech, RTL support, and persistent chat sessions.
-

Karawan

Peer-to-Peer Intercity Carpooling Platform | Team Project

- Built a peer-to-peer carpooling platform connecting travelers along shared routes.
 - Enabled users to publish rides by route, date, seat availability, and fare, or discover and join available rides.
 - Implemented real-time ride search, bookings, in-ride chat, notifications, ratings, and cross-platform mobile support.
-

Sign Bridge India

Real-Time Indian Sign Language Communication Platform

- Built a browser-based platform for real-time, bidirectional translation between Indian Sign Language and spoken/written language.
 - Integrated MediaPipe Vision AI for real-time sign recognition and a 3D avatar to generate ISL signs from text and speech.
 - Implemented ISL grammar conversion, interactive gloss editing, bilingual support, and privacy-focused local processing.
-

Rasta AI

AI-Powered Assistant Platform | Team Project

- Built an AI-powered platform for document analysis and information retrieval.
- Integrated multilingual voice and text interactions using LLMs.
- Secured 2nd position at the Cursor Kashmir Hackathon.
